

Carlos T. Lopes:

Birthdate: 23rd January 1962, St. Eustatius

I'm of Son of the late Vincent Astor Lopes one of Statia's renowned Politicians.

After moving to Statia from Florida with my family, because of illness of my foster father, I, as an entrepreneur, continued my business in lawn service and computer technology and printing. I am the founder and currently the president of the St. Eustatius Swimming Association. I have trained swimmers and also competed on a competitive level, I am owner of C & C services, presently manager of the St. Eustatius Public Swimming Pool. Competes with my team "Dynamite" in the sports of volleyball, softball, and basketball, including volunteering my services as referee or umpire.

I am currently the president of the supervisory board of the local telecommunication company, Eutel N.V.

In October 2020, I first postulated myself as a candidate on the list of the PLP (Progressive Labor Party) of which gain 3 of the 5 seats in the Island Council Election.

Currently I am the public relation officer for the party. Coming from a family that have always been in the political arena, it was not that difficult to make the transition.

I am a person that engages with everyone and young and old alike.

Through the PLP's network I was introduce to the U-buntu Connected Front Political Party and their mission to take part in the Second Chambers election in March 2021.

I applied as a Candidate for the list of the Political Party U-buntu Connected Front because I felt the need to represent the communities of the BES in the Dutch Political House of Representatives. The BES Communities need a voice that understands what they want from The Politic in the Second Chamber. I'll be that voice.
