

Charles Albertis Woodley:

21st December 1976 was my birthday in St. Eustatius

I'm Son of the late Albert and Hilda Woodley.

Resided in the Netherlands for over 10 years before returning to St. Eustatius in 2011.

I'm Carpenter by profession, Union representative of All for 1, Ex-commissioner from 2017 to 2018. I am currently the president of PLP (Progressive Labor Party) that won the majority of seats in the last Island Council Election of October 2020.

I am passionate about defending the rights of the people I represent and what I believes in.

I found that connection with U-buntu Connected Front because of common history, goals, struggles and aspirations.

St. Eustatius might be small in size and numbers, but that should not limit ones right to be respected. It is a grave injustice to advance one's agenda "to achieve" while simultaneously and deliberately trampling on others basic rights to exist. This goes against any form of human dignity. I am because you are.
